

## Accessibility Statement

Boehringer Ingelheim is committed to providing a website that is accessible to the widest possible audience, regardless of technology or ability. We are actively working to increase the accessibility and usability of our website and in doing so adhere to many of the available standards and guidelines. These guidelines explain how to make web content more accessible for people with disabilities. Conformance with these guidelines will help make the web more user friendly for all people. We are continually seeking out solutions that will bring all areas of the site up to the same level of overall web accessibility.
